Loft Bed

The LOFT BED matches the Loft sofa collection designed with today's urban condo in mind. The shape of the headboard is inspired by profile of the arm of the Loft collection. Its blackened steel leg is custom made to complement the one on the sofa. It comes with an optional fully upholstered storage under the mattress. The bed comes with a european wooden slats mattress support with a hydraulic lift mechanism that offers a generous amount of extra storage, which is dearly needed in smaller spaces. Finally, it sits 1.5 inches off the ground in order to give some sweeping space under the bed. Shown with a 10 inch mattress, maximum recommended thickness 12 inches.
